

Roy Makes a Choice

by Tammy Swann

“Boys and girls, we will write about things that grow,” said Mrs. Foy. “Join a partner. And keep the noise down, please.”

“Let’s pick how food grows,” Roy said.

“That’s a great choice! We all like to eat!” Joy pointed out.

Roy and Joy went on the Web.
They made this list.

1. Crops grow in moist soil.
2. Food must get to stores quickly, so it won't spoil.

4

3. Farmers work hard to grow the food we buy. Think about them when you walk through a market.

5

A man showed healthful ways to make veggies.

“Brush them with only a bit of oil, put them on foil, and broil them.”

The next day, Roy and Joy read a poem to the class.

“Thank you, Farmers, who toil on the soil. You grow so much, we can broil, bake, and boil!”

The class liked Roy and Joy's poem. They clapped loudly!

/oi/

boil	Joy	Roy
boys	moist	soil
broil	Mrs. Foy	spoil
choice	noise	toil
foil	oil	
join	pointed
